

Certified Weed Free

Get Go

A complete feed for foals.

GUARANTEED ANALYSIS:

Crude Protein, (min %) 14	Sodium, (min %) 0.2
Lysine, (min %) 0.25	Sodium, (max %) 0.5
Crude Fat, (min %) 3	Magnesium, (min %) 0.2
Crude Fiber, (max %) 25	Potassium, (min %) 1.0
Acid Detergent Fiber (ADF), (max %) 34	Copper, (min ppm) 20
Neutral Detergent Fiber (NDF), (max %) 45	Selenium, (min ppm) 0.3
Calcium, (min %) 0.5	Zinc, (min ppm) 100
Calcium, (max %) 1.0	Vitamin A, (min IU/lb) 2500
Phosphorus, (min %) 0.25	Vitamin D, (min IU/lb) 250
Salt, (min %) 0.3	Vitamin E, (min IU/lb) 50
Salt, (max %) 0.6	

INGREDIENTS:

Alfalfa Meal, Mixed Grain Hay, Almond Hulls, Soybean Meal, Rice Bran, Grain Screenings, Ground Limestone, Monocalcium Phosphate, Yeast Culture, Brewers Dried Yeast, Dried *Saccharomyces Cerevisiae* Fermentation Solubles, *Lactobacillus Acidophilus* Fermentation Product, *Lactobacillus Casei* Fermentation Product, *Enterococcus Faecium* Fermentation Product, *Bifidobacterium Longum* Fermentation Product, *Aspergillus Oryzae* Fermentation Extract, Zinc Methionine Complex, Manganese Methionine Complex, Copper Lysine Complex, Cobalt Glucoheptonate, Magnesium Oxide, Vitamin E Supplement, Mineral Oil, Selenium Yeast, Manganese Sulfate, Biotin, Ethylenediamine Dihydroiodide, Vitamin A Supplement, Riboflavin Supplement, Thiamine Mononitrate, Vitamin D3 Supplement, Cane Molasses, Salt, Propionic Acid, Ammonium Hydroxide, Acetic Acid, Benzoic Acid, Sorbic Acid, Tartaric Acid, Verxite, Silicon Dioxide, Oil of Orange, Wheat Bran.

FEEDING DIRECTIONS:

The amount of feed will be based on the foal's weight and acceptance of GetGo™. All foals should be started at the Low Range as this allows for a smooth transition and aids in overall performance of GetGo™. After approximately 2 weeks, the foal should be moved to the Mid Range category. At this point, he is ready to fully utilize the feed. Those foals for which maximum, rapid growth is desired can (with careful attention to the joints) have their rations increased to the High Range after 2 weeks at the Mid Range. As the foal gains weight, the amount of feed should be increased within the same Range category he is in at the time.

**DO NOT FEED THIS PRODUCT FREE CHOICE.
FOLLOW FEEDING INSTRUCTIONS CAREFULLY.**

POUNDS OF GETGO™ PER FOAL'S WEIGHT based on a mature weight of 1,000 lbs

Foal/Yearling Weight	Low Range	Mid Range	High Range
400 lbs	5.50 lbs	7.00 lbs	8.00 lbs
500 lbs	6.75 lbs	8.25 lbs	9.50 lbs
600 lbs	8.00 lbs	10.00 lbs	11.50 lbs
700 lbs	9.00 lbs	11.25 lbs	13.00 lbs
800 lbs	10.00 lbs	13.50 lbs	14.75 lbs
900 lbs	11.25 lbs	14.00 lbs	16.50 lbs
1000 lbs	12.50 lbs	15.50 lbs	18.00 lbs

From 750 lbs and up, if you are not pushing the foal for fast development, you can begin cutting the ration down using StableMix™ to replace some of the GetGo™. By the time the foal is 14 months old, he can be transferred completely to StableMix™. If the foal is going into an early training program, a portion of the ration should continue to be made up of either GetGo™ or UltraMate™. This will keep the energy levels up and vitamins and minerals at the levels needed by a young horse in training.

CERTIFIED WEED FREE:

Under California Food and Agriculture Code Sections 5101 & 5205. All seeds and materials contained in the product have been rendered inert and cannot germinate.
